

Beautiful Birds

This lovely and unique panel can be used in many ways. Here are a few ideas:

- Sew the panel together. It is sized to fit together perfectly to form a single tree full of colorful birds. It could be the center of a quilt, or could be quilted and bound for a wall hanging.
- Cut the blocks apart and add sashing or try an attic window setting, using the coordinating leaf prints.
- Use the panel as the back of a jacket or vest.
- A few blocks sewn together would make a great tote bag
- Add borders and some insulated batting for potholders—who doesn't need a set?
- Use with your favorite pattern to make an e-book cover.
